^{*}In cases of towns where there has been abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

[†] Figures not available.

Explanation of symbols used:—B.—Births; B.R.—Birth Rate; C.—Choiera; S.—Smallpox; P.—Plague; P.—Fevers; D.D.—Dysentery and Diarrhoea; R.D.—Respiratory Diseases; M.D.—Maternal Peaths D. R.—Death Rate; I.D.—(Infantile Deaths included in total deaths); ...—Nil information.

REMARKS

The figures of births and deaths shown in this statement for week ending the 4th August, 1956 relate to 244 towns with an estimated population of 34,467 thousands. The total number of towns is 318 and their population is 41,584 thousands. Thus 77% of the total number of towns representing 83% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 20,428 and 8,517 representing birth and death rates of 30.8 and 12.8 per thousand of population respectively.

(a) States (Part A and C):—The data here relate to 202 towns with an estimated population of 29,476 thousands. Information about Bihar could not be included. The total number of towns is 253 and their population is 33,500 thousands. Thus 80% of the total number of towns representing 88% of the total population is covered.

The number of births and deaths recorded in these towns were 18,304 and 7,580 representing birth rates and death rates of 32.3 and 13.4 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) States (Part B):—The data here relate to 42 towns with an estimated population of 4,991 thousands. The total number of towns is 65 and their population is 8,084 thousands. Thus 65% of the total number of towns representing 62% of the total population is covered. The number of births and deaths recorded in these towns were 2,124 and 937 representing birth and death rates of 22·1 and 9.8 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
